

Dear Senators,

Whereas all contiguous towns in the State are not encumbered with a toll or tax when crossing into their neighboring municipalities, it should be recognized that the imposition of a border toll unfairly encumbers towns positioned on State borders with an unequal and disproportionate hardship.

As the law is intended to be equally applied to all; to be just, the penalty of taxation in principle ought to be the same.

Therefore please do not pass legislation permitting the set up of Border Tolls, If the State does pass such legislation, please give those residents living on State borders immunity from paying such tolls.

Andrew Cote
